

Brightening Up the Studio

A charitable arts organization conducts an LED retrofit project

The Project

Clayworx: Ceramic Arts Learning Centre aspires to give everyone access to exceptional educational, artistic and community-building experiences with clay and ceramic arts. They are a charitable arts organization offering clay programming to children and adults of all skill levels. They also have a membership stream for clay practitioners to create in studio, allowing for informal mentorship opportunities and meaningful connections within the London clay community.

Clayworx cares about reducing their climate impacts and is getting support to engage in more sustainable practices as a member of Green Economy London. They completed an audit, where they learned about the benefits of switching the 62 fluorescent lights on their second floor to LEDs. They applied for a Climate Action Microgrant to help them take action.

 London, ON Arts, entertainment and recreation

Funding for the 2024
Climate Action Microgrant was
generously provided by TD

The Benefits

Reduced Energy Costs
and Carbon Emissions

Improved Employee and
Customer Experience

Brightening Up the Studio

The Results

Clayworx's LED retrofit project is expected to reduce their energy bills and lower their carbon footprint. The new lighting also makes for a brighter space, creating a more welcoming learning environment for students, visitors, members and a better working environment for staff.

Jennifer Pastorius
Executive Director

If not for this grant, we would not have been able to implement our lighting upgrade to LEDs and reduce our carbon footprint. The **Climate Action Microgrant** made the project possible. Thank you for your support!

Green Economy London helps local businesses to adapt and thrive in the low-carbon transition. We provide training, resources, and 1:1 support to help our members measure and reduce their carbon footprint while saving money, building their brand, and becoming the supplier and employer of choice. Join us in making business better, together. Contact us at hello@londonenvironment.net or visit our website at greeneconomylondon.ca to learn more.
